**At the Annual General Meeting 3rd September 2017**

## PRESIDENT'S REPORT

Ladies and Gentlemen of the Association, it is indeed an honour and privilege to be elected as your President for 2017/18.

Firstly I would like to thank the outgoing President MAJ Michael Newbond (Retd) for his tireless effort not only as President but also undertaking sub-committee functions over the past 3 years to ensure the Association remained on track is both acknowledged and very much appreciated. Thank you Mike.

I would also like to thank Mr Gus Allen. Your service to the Association as Membership, Kindred Associations and ANZAC House representative has been for a majority of time undertaken in the background. Your assistance in these areas is very much appreciated. Thanks Gus.

I would also like to publically acknowledge the tireless work undertaken by our Secretary Mr Alan Rogers, your knowledge and input is to be applauded. Thank you.

I am aware that I have some large shoes to fill due to the excellent effort of all our past Presidents who have provided the steerage to ensure our Association survives. This will continue.

To the previous committee that have left, thank you for your service, input and advice, to the new members of the committee, welcome on board and it is up to us to pick up the mantle and strive ahead.

The Victorian RAEME Corps Birthday Dinner is being held on the 24<sup>th</sup> November 2017 at Clayton RSL. Please mark this in your diaries, calendars. It is a very good night.

## **BLUEBELL RAEME VIETNAM VETERANS**

RAEME Vietnam Veterans next meeting is our AGM followed by a luncheon for those who can stay to be held on Wednesday 25<sup>th</sup> of October at Ballarat RSL, which is now located at Midlands Golf Club Invermay Park.

### **RAEME BIRTHDAY DINNER FRIDAY NOVEMBER 24<sup>TH</sup> CLAYTON RSL**

We need to strongly consider attending the RAEME Dinner in November, particularly as it the 75th anniversary of the Corps forming. My rock n' roll band, "Rock Steady" will be in attendance to play some dance music, as well as some "golden oldies" from previous war eras.

### **LONG TAN VIETNAM DAY**

A number of RSL held services prior to Long Tan Day, while others had dinners. In the week leading up to the day a lot of our Veterans sell badges to support the V V A A welfare. The Heidelberg Repatriation Hospital always holds a service two days prior and is always well attended. This year it was held in the Acacia Room, due to the weather. They also supply a top morning tea after the service. The official day at the Shrine saw a gunfire breakfast, which is always most welcome. A good turn up of "Bluebells" behind the banner was a stirring sight.

A strong wind prevailed during the March past testing the strength of the banners and the bearers carrying them. President Bob Elworthy did a great job stepping in, for usual MC Peter Meighan. New innovation chairs were provided for everyone that attended. The Premier Daniel Andrews spoke on the contribution made to the Vietnam War and paid respect to the more than five hundred service men and women who made the ultimate sacrifice.

Doctor Dot Angel, representing the South East Asian Treaty Organisation volunteers, gave a most informative talk regarding their activities in a variety of places in Vietnam. They at times, had to visit places with very little security, particularly during the "Tet Offensives". Fortunately the rain held off till after the completion of the day.

### **SICK PARADE**

A number of "Bluebells" have had various "ops" or have not been well of late. I have their phone numbers for contact and wish them all a speedy recovery

# Will you recognise your heart attack?

Patient fact sheet

## Important notes

- **No two heart attacks are the same.**

Someone who has already had a heart attack may have different symptoms the second time.

- **Warning signs differ from person to person.**

Heart attacks are not always sudden or severe. Many start slowly with only mild pain or discomfort. Some people do not get any chest pain at all—only discomfort in other parts of their upper body.

- **Knowing the warning signs of heart attack and acting quickly can reduce the damage to your heart muscle and increase your chance of survival.**

Too many people lose their lives because they wait too long to call Triple Zero (000) for an ambulance.

## Remember

- **People who have had a heart attack are at increased risk of having another.**

People with coronary heart disease still delay seeking medical care the second time they experience warning signs of heart attack.

*This information is for educational purposes only. It is not a substitute for individual health advice provided by your doctor or cardiologist (heart specialist).*

## What are the warning signs of heart attack?

The most common warning signs of a heart attack are outlined below. You may have just one of these symptoms, or you may have a combination of them. Symptoms can come on suddenly or develop over minutes and get progressively worse. Symptoms usually last for at least 10 minutes.

- **Discomfort or pain in the centre of your chest—**

this can often feel like a heaviness, tightness or pressure. People who have had a heart attack have commonly described it as like “an elephant sitting on my chest”, “a belt that’s been tightened around my chest” or “bad indigestion”. The discomfort may spread to different parts of your upper body.

Chest

- **Discomfort in these parts of your upper body:**

Arm(s)

Shoulder(s)

Neck

Jaw

Back

You may have a choking feeling in your throat. Your arms may feel heavy or useless.

- **You may also experience other signs and symptoms:**

- feel short of breath
- feel nauseous
- have a cold sweat
- feel dizzy or light-headed.

Some people have also described feeling generally unwell or “not quite right”.

If you have heart attack warning signs, refer to your action plan and get help fast. Call Triple Zero (000)\* and ask for an ambulance.

\*If calling Triple Zero (000) does not work on your mobile phone, try 112.

March 2014 Vol.13 No.1

## Warning signs of heart attack—what to do

- 1. Stop**—Immediately stop what you are doing and rest.
- 2. Talk**—If you are with someone, tell them what you are feeling.
  - If you take angina medicine\*:
    - Take one dose of your angina medicine. Wait 5 minutes.
    - Still have symptoms? Take another dose of your medicine. Wait another 5 minutes.
  - If any of your symptoms:
    - are severe
    - get worse quickly
    - have lasted 10 minutes

### 3. Call Triple Zero (000)\*\* now!

- Ask for an ambulance. Don't hang up. Wait for advice from the operator.

\* 'Angina medicine' refers to short-acting nitrate medicines that are absorbed through the lining of your mouth to relieve angina symptoms. They can be a spray or a tablet. The most common angina medicine is glyceryl trinitrate, sometimes called 'GTN'.

\*\* If calling Triple Zero (000) does not work on your mobile phone, try 112.

## Why is a heart attack an emergency?

With heart attack, every minute counts. Too many people lose their lives because they take too long to call Triple Zero (000) for an ambulance.

Getting to hospital quickly can reduce the damage to your heart muscle and increase your chance of survival. In hospital, staff will give you treatments that help to reduce this damage.

## Why call Triple Zero (000)?

Calling Triple Zero (000) gets you:

- an ambulance fast
- treatment as soon as you phone
- advice on what to do while waiting for the ambulance to arrive.

Ambulance paramedics are trained to use special lifesaving equipment and to start early treatments for heart attack inside the ambulance.

The ambulance is the safest and fastest way to get you to hospital. It gets you medical attention straight away. Attempting to get to hospital quickly in a private vehicle can be dangerous for the occupants of your vehicle and other road users.

It is always better to go to hospital and be told it's not a heart attack than to stay at home until it is too late.

## Want to know more?

For more information about the warning signs of heart attack, visit [www.heartfoundation.org.au](http://www.heartfoundation.org.au) or call our Health Information Service on 1300 36 27 87.

## Be prepared

- Know the warning signs of heart attack and what to do.
- Keep your action plan handy (on your fridge or in your wallet/purse).
- Make sure that you have ambulance cover.
- Tell your family and friends about the warning signs of heart attack and what to do—don't keep this lifesaving message to yourself.
- Prevent another heart attack by taking steps to reduce your risk—talk to your doctor, attend a cardiac rehabilitation program or visit [www.heartfoundation.org.au](http://www.heartfoundation.org.au).
